WELLNESS EXPERIENCE

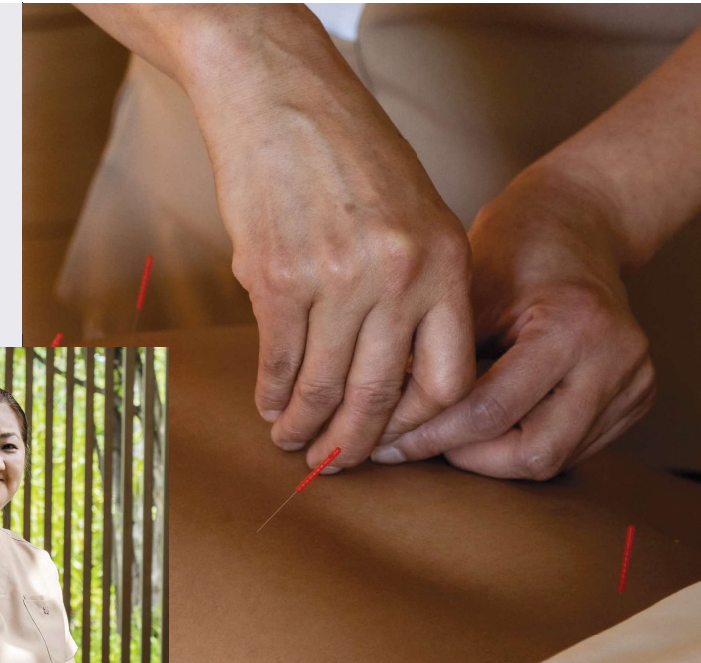

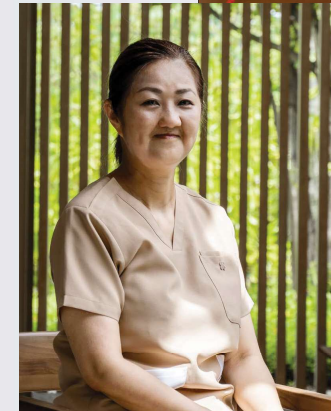

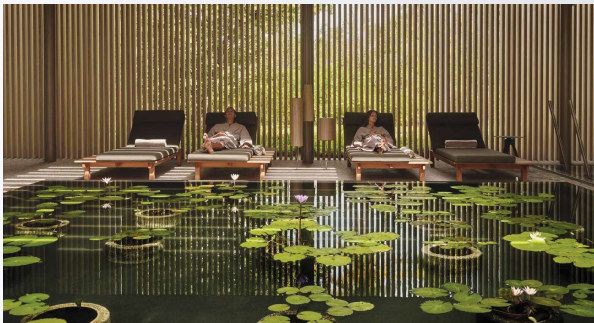

NOBLE PANACEA

Noble Panacea is a skincare science masterpiece and sustainable brand founded by Nobel Laureate Chemist Sir Fraser Stoddart. Harnessing his groundbreaking OSMV Technology, the state-of-the-art skincare formulas deliver 200% better penetration through a controlled, long-term release of protected active ingredients for efficacy of up to tenfold. The unparalleled results truly highlight authentic beauty in rejuvenated radiant, youthful-looking skin.

HAECKELS

Haeckels was founded in 2012 by volunteer beach warden and coastal enthusiast Dom Bridges. Disillusioned by the production ethos of many larger skin care companies Dom wanted to create simple hand-crafted products that showcased the surrounding coasts natural ingredients in the hope that the products themselves would then promote Margate's heritage of healthy coastal living. When Haeckels was just starting out Dom would collect seaweed and local botanicals along the Margate coast and bring them back to his family kitchen to experiment.

Sustainability has always been part of Haeckels' philosophy and has only become more and more entwined with what they do. Haeckels strives to implement the same care found in their home town of Margate, and raise the same awareness about the fragility and value of the ocean.

VISITING PRACTITIONER: YUKI NISHIKUBO

ACUPUNCTURE & SHIATSU

Born and raised in Tokyo, for the past 25 years Yuki Nishikubo has refined her healing techniques in Japan, Canada, Australia and UK.

Yuki's vocation allowed her to consolidate unique skills for treating a variety of condition as an Acupuncture and Shiatsu practitioner; these two ancient healing practices promote relaxation, stress relief, improved circulation and increased energy, and bring balance to the body's natural energy pathways which in turn encourages physical wellbeing as well as mental clarity.

Thanks to her holistic approach, Yuki can also apply other techniques such as Moxibustion (heat treatment) and Remedial Dry Massage (similar to Shiatsu), providing an effective experience focused on the person's unique needs.
